Figure 1: A schematic diagram of a two-stage, two-dimensional, two-color, two-beam optical lattice. The diagram shows a coordinate system with x and y axes. A central region is labeled "Lattice". To the left, a "Pump" beam is shown with a frequency of 200 THz. To the right, a "Probe" beam is shown with a frequency of 200 THz. The lattice is formed by the interference of these two beams. The diagram also shows the resulting "Lattice" structure with a period of 200 nm. The "Pump" beam is shown as a series of horizontal lines, and the "Probe" beam is shown as a series of vertical lines. The "Lattice" is shown as a grid of small squares. The diagram is labeled "Figure 1" at the bottom.
