Secretary of State,

Upon receiving my first notice for my 2001 UBR on July 2, 2001, I was devastated to learn that the fee was now \$550.00 because I had missed the May 1st deadline. I am not one to pass responsibility onto others and I know it is technically my duty to oversee that this is paid on time but I am concerned because this was the first notice I have received concerning the 2001 UBR this year. Looking over past records everything has been in order and the \$150.00 fee has been paid properly when the past notices for prior years have come in.

I never received the 2001 UBR notice prior to May 1, 2001 this year and because of that did not send in payment. It was really out of mind since I didn't get a notice. I am a small business and cannot afford to pay a \$400.00 penalty on top of the \$150.00 fee.

Upon receiving the notice, I immediately placed a call to the main office (850-488-9000) on July 2, 2001 at 4:00 p.m. and was instructed by the office to remit my payment of \$150.00 and a letter explaining that I had not received the original notice and it would be taken into consideration when received. So I am doing just that. I have enclosed a check in the amount of \$150.00 and the hopes that this will keep my small business in good standing and a promise that next year, with or without a notice before May 1, I will remember to file my 2002 UBR.

Sincerely,

Michael W. Weir
