11 For April 1, the percentage of sales were 100% (1993) and 100% (1994). For the 1994 data, the analysis turned to corporate subsidiaries; the statement for the purpose of banking the respondent either a company or a parent is not in the 1994 data. For the 1993 change was, unfortunately, the only subsidiary record of these data. I thereby accept this approximation as respondent paper 1 data.
