G73294

1-26 96 (2) B-0327 - NC

1. The first step in the process is to identify the problem. This involves gathering information about the situation and the people involved.

2. The second step is to analyze the problem. This involves breaking the problem down into smaller parts and identifying the causes.

3. The third step is to develop a plan. This involves deciding on the best way to solve the problem.

4. The fourth step is to implement the plan. This involves putting the plan into action.

5. The fifth step is to evaluate the results. This involves checking to see if the problem has been solved.

6. The sixth step is to make adjustments. This involves making changes to the plan if necessary.

7. The seventh step is to document the process. This involves writing down what was done and the results.

8. The eighth step is to share the results. This involves telling others about what was done and the results.

9. The ninth step is to learn from the experience. This involves thinking about what was learned and how it can be used in the future.

10. The tenth step is to continue to improve. This involves looking for ways to make the process even better.
