8. Do you anticipate the subject for this report has another 12 month contribution period	Yes No

9. Name and Address of Current Registered Agent

10. Name and Address of New Registered Agent

CARRION, RAMON
2323 CURLEW ROAD, STE 7C
PALM HARBOR FL 34683

01 Partner
02 Street Address of the Registered Agent
28100 U.S. Hwy. 19 N.
03 Suite 504
04 Clearwater FL 34621

[illegible]

• **Figure 1** shows the results of the regression analysis. The dependent variable is the number of days of absence due to illness. The independent variables are the age, sex, and education of the respondent, and the number of children in the household. The results show that the number of days of absence due to illness increases with age, and is higher for females than for males. Education has a negative effect on the number of days of absence due to illness, and the number of children in the household has a positive effect.
