Due to a processing error on our part, the online articles of organization you submitted to form a Florida limited liability company online were filed twice under two different names and assigned two separate document numbers.

The online articles were processed initially on January 29, 2009, under LNR531, LLC and assigned document number L09000009433. Then due to a problem with our online system, your online filing was re-entered into our online filing system for processing. Our office rejected this "second" submission due a name conflict. The name conflict, of course, was the previously processed filing for LNR531, LLC.

Based on this correspondence, you amended and resubmitted the "second" filing under the name "LR HOLDINGS 531, LLC." This version of your online filing was filed on January 30, 2009, and assigned document number L09000009632. Consequently, you now have two active limited liability companies on our records.

We can correct our records; however, we need to know which filing you wish to keep and which filing you wish to discontinue. Do you prefer to keep your initial filing for LNR531, LLC filed January 29, 2009, which was assigned document number L09000009433? Or, would you prefer to keep the second version, which was filed on January 30, 2009, under the name LR HOLDINGS 531, LLC, and assigned document number L09000009632? Please advise.

Please accept my sincere apology for this error. Please do not hesitate to contact me should you have any questions or need any assistance with this matter.

Sincerely,

Brenda L. Tadlock
