STATEMENT OF FACT

The filing of voluntary dissolution was filed without my authorization. This was an act done fraudulently and in no way is this business closed. My business is fully operational. I know the person who did this. This was done by a former employee who was terminated on March 30th, 2020. Please help me in getting this resolved as soon as possible. Please delete the voluntary dissolution mark from the articles being that this is not true, and it is hurting the reputation of my business. You cannot just allow something like this to stain my record when we I have worked very hard to take care of our reputation. There has been a police report filed with the local authorities and a report was filed with the FBI. Both reports were filed on April 9th, 2020.

Thank you.
