To Whom It May Concern:

I am providing this notarized Statement of Fact regarding the reinstatement of Fixed LLC (L18000111891), which was submitted without my knowledge or consent.

Please review this summary of the issue:

Last month I began to receive business credit card offers for an LLC that I previously served as a Registered Agent for. When I researched on subiz.org, I was shocked to see that the business was reinstated in August of this year with my name, but an address in Indianapolis, a city I have never visited. When I researched the address, it is linked to two other businesses. Both of these businesses were previously inactive and reinstated around the same time as Fixed LLC. I did not authorize this reinstatement. I did not submit an electronic signature of registered agent on 8/25/2021, nor did I pay the reinstatement fee. I do not want my name associated with Fixed LLC. To me, it seems this may be a case of fraud if three inactive FL businesses were all reinstated at similar times to the exact same address in Indiana. The attachments show my dissolution from last year, as well as the three businesses on sunbiz that are currently linked to this address. I have also attached documents that show prior to the dissolution, all of the addresses associated with me were Florida addresses, until this fraudulent reinstatement in August 2021.

Thank you for your time.
