

L21000307241

STATEMENT OF FACT

Enclosed please find Police Case Report # 2100000590 which originated in my hometown of Marco Island, FL. This case outlines criminal use of my information including my name and home address to establish a fraudulent LLC known as "Wonder Landscape and Design by Suzanne". This was assigned document #L21000307241 with effective date of 07/04/2021 and filed date of 07/06/2021. This LLC was never owned by me nor did anyone have permission to establish this corporation with my personal information.

As per discussion with employees Theresa and Tanya at The Division of Corporations, my husband and I sought to dissolve this company on 7/12 to help protect any further criminal activity that might be the subject of this. This case has been forwarded to the Inspector General of the State of Florida's Office for further investigation as it carries two felony charges associated with this crime which was committed on the internet and falls under different jurisdiction.

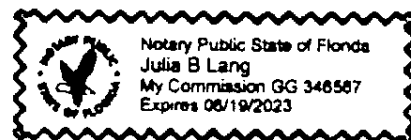

It is my desire that this statement be attached to the file for this LLC so as to serve as record for future reference.

If reimbursement of the \$25.00 fee to dissolve this LLC is possible, it would be appreciated since establishment of this LLC was never action initiated by me.
