Recently a business was registered using my home address. My concern is the unknown about this business that fraudulently and unlawfully decided to use our address. Is this person involved in any illegal activity, it has put my family in harms way. I was told that the "business" registered as "Ground Express CO.,LLC cannot be dissolved but I do have a say so over whether they use my address. I have my own insurance agency and it's infuriating that I have to go through all of this so that someone else cannot fraudulently use my address! The name registered with the business is Alexandru Barburas. Please remove my address from this business name, again this is not my business. Thank you!
