Statement of Fact

I discovered on or about May 11, 2022 that a new llc, Nassau United LLC (L22000176646), was registered with me as the sole member without my knowledge or consent.

I am on the board of directors of Amelia Island Youth Soccer (N95000003211). The president of that board, Jay Denison, made a unilateral decision to change the club name and attempted to do so by forming an llc under the new name. Apparently this happened in early to mid April although I only discovered the new llc this week. As I am the only listed member of the llc and was not aware of it I would like this entity dissolved as soon as possible. As the only member of the LLC I feel that this has opened me to a great deal of possible liability and could harm me and my family.

It was registered by Jay Denison who is listed as the registered agent. I repeat he did not have my consent to form this llc with me as a member.
