1. The first step in the process of the scientific method is to make an observation or ask a question. This leads to the second step, which is to do background research. The third step is to form a hypothesis, which is a prediction or an educated guess. The fourth step is to test the hypothesis by conducting an experiment. The fifth step is to analyze the data and draw a conclusion. The sixth step is to communicate the results of the experiment. The seventh step is to repeat the experiment to verify the results. The eighth step is to use the results to make a new hypothesis or to refine an existing one. The ninth step is to use the results to solve a problem or to answer a question. The tenth step is to use the results to make a new discovery or to advance the field of study.

E. Effective date, if other than the date of filing: _____ (optional)

(If an effective date is listed, the date must be specific and cannot be prior to date of filing or more than 90 days after filing.) Pursuant to 605.0207 (3)(b)

Note: If the date inserted in this block does not meet the applicable statutory filing requirements, this date will not be listed as the document's effective date on the Department of State's records.

(b) The 90th day after the record is filed.

Dated October 24, 2024
