6. The first of these is the fact that the first of the two main groups of the population, the "white" population, is the one that is most affected by the economic crisis. This is due to the fact that the "white" population is the one that is most dependent on the state for its livelihood. The second group, the "black" population, is the one that is least affected by the economic crisis. This is due to the fact that the "black" population is the one that is most self-sufficient and least dependent on the state for its livelihood.
