**E. If amending or adding additional Articles, enter change(s) here:**  
(attach additional sheets, if necessary). (Be specific)

1. The first step in the process of creating a new product is to identify a market need. This involves conducting market research to understand the preferences and behaviors of potential customers.

2. Once a market need is identified, the next step is to develop a concept. This involves brainstorming ideas and creating a prototype that demonstrates the basic functionality of the product.

3. The third step is to conduct a feasibility study. This involves evaluating the technical, financial, and operational aspects of the product to determine if it is viable for production.

4. After the feasibility study is complete, the next step is to develop a business plan. This involves outlining the marketing, sales, and distribution strategies for the product.

5. The final step in the process is to launch the product. This involves manufacturing the product, distributing it to retailers, and promoting it to the target market.

The date of each amendment(s) adoption: June 20, 2010

(date of adoption is required)

Effective date if applicable: July 1, 2010

(no more than 90 days after amendment file date)
