ORMOND BEACH, FLORIDA

In that orderly business procedure is necessary to permit some uniform procedure of the Cemetery, for the interest of all lot owners and the community which it serves, these specifications are the result of careful study and reasonable application of the Memorial Idea. They are not designed to hinder or be harmful to anyone and upon due consideration will stand the test of reason.

FAMILY MONUMENT

1. To avoid the appearance of congestion, only one central or family memorial shall be placed on a family plot. When one to align with other memorials it is necessary to be placed at the end of the plot there must be three (3) inches between the base and the rear line. This location will be furnished by the Cemetery Management.

PROHIBITED MATERIAL

2. For the best interest and protection of the lot owner, memorials, even for temporary use, of cement, artificial stone, composition, wood, tin or iron will not be permitted. (Temporary marking identification markers excluded.)

MAUSOLEUMS

3. Mausoleums or tombs, either wholly or partially above ground will be constructed only on lots designated by the Cemetery.

LOCATION AND DESIGN

4. Plans, specifications and location of the mausoleum or tomb and lot are subject to the approval of the Cemetery Advisory Board.

To avoid errors it is required that a sketch drawn to scale showing design and complete details, with all dimensions, be submitted and that approval in writing be secured from the Cemetery.

PERMIT

REQUIRED

5. For the protection of all lot owners, it is necessary for all persons erecting, cleaning, or repairing memorials obtain a permit, and, in doing such work, comply with the directions of the Cemetery. The persons or firms requesting such permit may be required to furnish satisfactory evidence of their ability to properly perform the work proposed.

WORK SHOULD STOP

6. Out of respect, and for other obvious reasons, all work of any description must cease while a funeral or interment is being conducted in the Cemetery. All trucks and workmen must be kept at a reasonable distance from the location of the funeral.

APPROACHING

7. Approaching the bereaved for the purpose of selling a casket or urn within the Cemetery is recognized as not in the best interest and therefore will not be permitted.

QUALITY OF MATERIALS

8. To properly perpetuate memory, all monuments, markers, mausoleums and tombs must be of first quality granite or marble, quarried to agree with the Cemetery that such materials will be free from sap and components which cause rust stains and from natural faults which might cause checks or cracks.

AGREEMENT BY MONUMENT BUILDERS

9. Should any fault develop within five years from date of placement in the Cemetery, the faulty stone will be replaced without cost to Cemetery or lot owner. The replacement to be made by the manufacturer, his assuming the cost of fabrication and replacement, this being a long established custom of the industry.

AGREEMENT BY MANUFACTURERS AND FINISHERS

10. All manufacturers or finishers (including quarry manufacturers, wholesalers, and retailers) warrant to the Cemetery that monuments, markers, mausoleums and tombs will be of first grade marble or granite and will be finished in accordance with the trade standards of good craftsmanship. If any fault from improper finishing or lettering develops within five years from date of placement in the Cemetery, the faulty stone will be replaced by its manufacturer without cost to the Cemetery or the lot owner.

AGREEMENT BY MONUMENT BUILDER

11. Monument builders agree to set monuments and markers in conformity with Cemetery requirements and in accordance with the trade standards of proper methods of handling and setting. If any fault from improper setting develops within five years from date of placement in the Cemetery, such fault will be rectified by the dealer without cost to the Cemetery or lot owner.

And, all monument work must be done between the hours of 8:30 a. m. and 4:00 p. m.—Monday through Friday. No work will be permitted on Saturdays, Sundays or holidays.

SIZE OF MONUMENTS

13. The size of the family memorial shall be governed according to the ratio of its face area (length measured by height) to the superficial area of the lot and the ratio of its length (greatest horizontal dimension) to the average width of the lot. The face area of each piece of the memorial is to be figured separately. The face of the material shall not exceed 15% of the superficial area of the lot and its length shall not exceed 60% of the average width of the lot. In Block 4 (four), under no conditions will any memorial be permitted to extend in excess of thirty-two (32") inches above the grass root level and we solicit your cooperation.
