FILED
SECURE PART OF FLORIDA
TALLAHASSEE

We are on starting on the fifth generation of drug trends in our country. Due to this problem our children are dealing with many different levels of dysfunctional families. We are going to provide a way for the things that may be missing from the family level. It is our goal to help children gain an ongoing understanding and solutions to the adversity they may be dealing with as children, in and out of the family. They need to build a strong foundation on the emotional level, by acknowledging the consequences of their C.H.O.I.C.E.S.

An example of this areas trend: The prescription medication trend is out of control. People are going to multiple doctors. Some are on disability (from personal experience) I know they are prescribed on an average 280 30mil. Oxycodone and usually 90 to 120 Xanax bars as well as Somas, Lorcet, and others to name a few. These and even people who aren't on disability are prescribed an abundant amount of these meds. The ones on disability are getting their meds for free, then triple their income which the taxpayer is funding. The ones not on disability are usually paying a \$200.00 an office visit to get their medication. So this makes a big part of this trend a responsibility of the government and the medical profession as well. Their are more prescription medication than illegal drugs on the street in the South Florida area. Now this epidemic is developing a trend in our children. These issues need attention to bring a stop to this trend.

My project is a full production concert lets call the concert "SOUL PASSAGE" brought to you by The C.H.O.I.C.E.S. Program. Our goals and objectives are to put on a show for kids make them aware that choosing to use or try drugs is a CHOICE; That if you choose not to make this CHOICE your chances of being a successful functioning person in society increases tremendously. Also I will leave behind the CHOICE program. My goal is to get national attention. The problem is a nationwide one that is shown everyday on television. People fall victim to all kinds of consequences due to the very topic being discussed.

My project is innovative in that it will be introduced as a concert, in which the kids will be dancing to the beat of 5 artist who have died due to an overdose. These brilliant successful people (impersonators) performing music (concert style) will rock the house and grab these kids attention. This is not just another speech on alcohol and drug addiction. This concert will honor the greatest musicians of our time, but after the concert each artist will come to the podium and explain their life, how they started there addiction and how they lost their life; not even their money could save their life, if anything it contributed to their death.

Finally after the concert we will have guest speakers presenting statistics, where the kids can get help for addition, abuse, teen pregnancy and also emphasize the power one has when they make the CHOICE not to try drugs. They will learn that feelings are as important to master as a master degree in business. Explaining the 5 step process that takes place when one deals with a significant emotional situation. Learning to cope can be the key to achieving a happy successful life.

We will develop an anonymous questionnaire to give before the show and one after the show. We will want to analyze the impact the show has on them.

U Got C.H.O.I.C.E.S.

Children Helping Others In Critical Emotional Situations

THE PROGRAM

Problem Statement

The reasoning behind this program is to help the seed grow that the Soul Passage Concert planted. We feel a need to give kids the opportunity to learn how to deal with feelings. There are so many dysfunctional families that kids don't learn and develop a foundation of healthy emotional ways of coping. Families may be too busy to give attention to this part of their kids development. Then there are the kids that truly live in emotional abuse and/or physical abuse.

CHOICE Program

How it works

We will get permission from the school visited to allow the kids to have a program that can give them a foundation to gain power over their CHOICES. The kids alone will run this group and will change leaders of the group every week. They will discuss various topics that will empower their emotions. This will be accomplished by acknowledging pros and cons. They can learn positive ways of thinking and apply it to any situation and learn how to deal without reacting with compulsive negative behaviors. Self-confidence and self-esteem are the greatest gifts a child can receive. Learning to control anger, how to deal with feelings, knowing when you may need help. They will talk about their feelings (hopefully will be triggered by the topic of the day.) If the topic is anger it should bring up a situation that angered somebody and then the feedback and positive discussion can begin to help that person learn how to deal with their emotion.

Finally after the meeting a letter with questions will be filled out with information on ---

- Topic
- Attendance
- If the topic brought up feelings.
- Was there a positive outcome.
- Was there a need for outside help for a problem.
- Could you identify a significant emotional change and was the phase the person experiencing identified.
- Was a problem seen and did you consider both sides of the issue.

These papers will be asked to be mailed to the CHOICES Program so that we can keep record of the effectiveness of the Program. We can share our ongoing progress.
