Date

Article III – Purpose

Our goal is to help reduce the amount of toxic material that is leached out of these filters and into the playgrounds, landscapes and waterways (the environment in general). Not only by picking up these filters, but by putting them through a multi step process to remove most of the chemicals and then recycle the end product for industrial uses. At present, there is no where near sufficient income from the sale of the end product to keep up a program. This will only be possible through donations, grants and contributions.

Article IV Manner of Election

Any additional directors would be interviewed as to their education, experience and ability to further the cause of the corporation. After this process, there would be a vote and the majority vote would choose the new director.
