ARTICLE III PURPOSE

The mission of the EM Global Foundation is to impel and interconnect a forum of global leaders to find sustainable solutions and ideas to the world's most pressing challenges.

By fostering partnerships, providing strategic advice, and driving resources toward effective ideas, EM Global Foundation helps its members - organizations from the private sector, public sector, and civil society - maximize their efforts to alleviate poverty, create a cleaner environment, and increase access to health care and education.

To accomplish its goals, the EM Global Foundation has established separate initiatives, each with a distinct mission but all reflecting the founding vision: to implement sustainable programs that improve access worldwide to investment, opportunity, and lifesaving services now and for future generations.

Working in diverse geographic regions and responding to local needs, the initiatives address targeted challenges in the Foundation's key areas of focus: healthcare, renewable energy, developments, education and economic empowerment.

Across all initiatives, the EM Global Foundation emphasizes:

1. **Partnership and Collaboration.** The Foundation brings together governments, NGOs, and businesses in partnerships that harness each sector's unique expertise and resources. No matter where the Foundation works, it engages partners on the ground to ensure that projects are properly responding to local needs.
2. **Measurable Results.** The Foundation focuses its efforts in areas where it can have the greatest impact. Foundation projects develop best practices and lessons learned.
3. **Innovation and Markets.** The Foundation drives the innovation of individuals and businesses to develop new technologies and approaches that respond to markets and economies.
4. **Efficiency and Sustainability.** The Foundation spends every dollar and every moment wisely and works to ensure that projects can be affordably sustained by local communities.
5. **Replication and Scale.** The Foundation ensures that programs can be replicated and expanded by organizations, governments, and individuals to address their own specific challenges.
6. **Systemic Change and Local Impact.** The Foundation takes comprehensive approaches that re envision entire systems while still responding to the unique challenges in the places where we work.

Through strategic organization and investment, the EM Global Foundation strives to change global systems, entire communities, and the way business is done in both developed and developing countries — while emphasizing solutions that make meaningful and positive changes in individual lives.
