**KANGAJJOY Addendum (3/9/2013)**

**Article III Purpose**

**The purpose for which the corporation is organized is:** charitable and educational. Kangajjoy is dedicated to wildlife preservation and the prevention of skin cancer. As the name implies, Kangajjoy is dedicated to raising the public's awareness of the joy found in exploring wildlife—such as the amazing kangaroo. The first objective is wildlife preservation. Kangajjoy promotes passion and giving to organizations that support wildlife (specifically, wildlife federations, zoos, parks). This increased support of wildlife organizations is accomplished through several avenues.

One avenue of support of wildlife is public education. The Kangajjoy website is educational. It will provide information on zoos and parks across the United States and their needs for support. For instance, "adopt-a-baby zoo animal" is one way zoos raise money to support the care of their animals. The Kangajjoy website will highlight this method of fundraising. Raising public awareness through education will result in an increase in donations and participation in the activities of the organization (attending the zoos, parks).

Another avenue of support of wildlife is direct monetary contributions. Organizations that choose to partner with Kangajjoy (by selling the Kangajjoy products) will be considered "affiliates" and will receive a commission on the sales sold due to this affiliation. For instance, if the San Diego Zoo agrees to sell the Kangajjoy safari hat in its store, not only do they receive profits from that sale, they also receive a commission from any sales made from referral from their website (San Diego Zoo) the the Kangajjoy website.

The second objective is to raise awareness of the importance of using sun protection, especially on children. Despite public awareness announcements of the damage of the sun to children and the prevention of sun damage through products such as hats and sunscreen, rates of skin damage continue to rise. One reason for this, according to the American Skin Cancer Foundation, is that parents fail to use sun protection in their kids because it is a 'hassle.' We can reduce the hassle by increasing the kids' motivation to use skin protection products. Kangajjoy increases these factors by making the products cool and fun. The Kangajjoy hat is a vehicle for sun protection promotion. The Kangajjoy safari hat protects the wearer from sun damage. Included in the purchase of the hat, is a free sample of sunblock and a free sample of aftersun aloe. In addition, the Kangajjoy website will include education about the dangers of the sun exposure that will raise awareness and, hopefully, the use of sun protection. These hats will be sold at the sites of the organization: zoos, parks; thereby increasing the public's awareness of the importance of sun protection and also increasing the use of sun protection products.

Finally, profits made from the sale of the products will be donated to these wildlife organizations. Kangajjoy will abide by all the rules set forth by the IRS for public charities.
