# Freedom for Humanity

## Sum Custodis Mei Fratris

I am my Brother's Keeper

---

Freedom for Humanity is a charity dedicated to providing the basic necessities of life at no cost, so that humanity can be free to explore the depths of Life, Love, and Spirituality, while also contributing to the increased quality of life in your community. This is not a system of simply giving to the poor and creating dependent people, this is a system of teaching people how to share resources and work together for the common good of all humanity; regardless of race, religion and title.

We are creating a new standard in humanitarian work. Dedicated to being a completely transparent organization. All monthly statements and expenses will be published on our web site, as well as all income and donations for reference. Our goal is for no more than 5% to be used on operational costs and 95% to be used in humanitarian projects.

At Freedom for Humanity we are funded 100% by donations from our customers and companies that we either own, or partner with, who develop new technology as well as improve on existing information, in the arenas of clean, mineral rich water, nutrient rich food, and clean renewable energy.

It is our belief that when humans no longer need to stress and work endless hours just to provide their families with the basic necessities of life, we are able to begin to appreciate what is truly important in life. The love of our friends and family, the building of communities that help each other grow, and the elimination of the need for violence and crime.

Our business partners conduct research and development into the areas of renewable energy, clean food and clean water production. The systems they build require the least amount of maintenance possible, and create the most amount of available time for studying an interest that betters humanity.

SECRETARY OF STATE  
TALLAHASSEE, FLORIDA

Our 25 Year history working with Orphanages and Relief Missions in Africa has shown us that you cannot just give to people, you need to leave them with something that enriches their lives, increases their self worth, and inspires them to help their fellow man lead a life of the same value.

The communities we build will begin centered around orphanages, then in time will expand to assist the Homeless, and Veterans. We will begin by supplying clean water and food growing facilities, followed by a renewable energy plant. This will have the following effects.

- Reduce the operating costs of the youth facility by providing food.
- Provide an education program for the youth in agriculture and alternative farming methods.
- Give the youth a skill to enhance their life with instead of a life of poverty on the streets once adulthood is reached and they are dismissed from the youth facility.
- Decrease crime by removing the most desperate people from the streets and give them a reason to progress in life.
- Provide a sustainable means of income to the facility by sale of excess produce.

These facilities will soon produce their own electricity, providing an additional income for the residents in countries where power can be sold back to the electrical company. Once the Children of a community are cared for, and well established with clean food, water, electricity and online/hands on education programs in agriculture and sustainable farming, we will expand the project to include the local homeless and veteran communities. This will include housing and the above-mentioned utilities.

This will be free of charge to the occupants on the condition that they study alternative agriculture or another available skill, and rejoin society with and education and life skill. Once rehabilitated, they will be given jobs with one of the companies that support our charity, or support the mission of this charity by building and servicing the alternative agricultural units or in one of the other fields available through our partners.

This charity is built on the belief that we can create a better world.  
We will be the example that the rest of the world needs to see.  
Our time has come.
