## ALEXANDER RECONSTRUCTION ENTERPRISES, INC

### MISSION STATEMENT:

- I. Alexander Reconstruction Enterprises, Inc. is a human service organization created to facilitate positive individual and social growth and development among "at-risk" student populations, through educational and work related activities.
- II. This organization seeks to create positive, successful work activities through which young people may become more meaningfully attached to their immediate community, involved with the broader business community, and ultimately become more aware of the broader global community of which we are all a part. In-so-doing, it is the goal of this organization to foster in each of its student/employees, a sense of self-control, connectedness to others and responsibility for themselves, as well as a more meaningful sense of shared future with other young people around the world.
- III. As the world population continues to increase, and as we are challenged daily to overcome issues of human diversity, conflict and failure of various forms too often become the permanent stopping place for this nation's young people. Alexander Reconstruction Enterprises, Inc., will work to create a means of positive productive engagement in this nation's work culture, which will better prepare it's participants to assume their role as responsible, involved adults in a rapidly changing world.
- IV. Educational organizations, health and human service organizations, business organizations, families, and above all, the young people involved in the program, will share a partnership role in it's development, both initial and on-going.
- V. It is our belief that each human life is significant and is uniquely capable of contributing to the social whole. It is our further belief however, that facilitating such contributions is the work of and the responsibility of the social system which ultimately derives benefit from these individual human contributions. We value each young person as a current and future

contributor to the society of humankind and will work diligently to create opportunities for each individual to achieve such contributions.

VI Alexander Reconstruction Enterprises, Inc., by establishing contractual relationships with nationally based corporate entities for the provision of many of its production resources, as well as being major purchasers of its products, will provide a unique addition to the existing number of educational/vocational organizations. Additionally, as the primary system of production will be the collection and recycling of organic refuse for use in marketable products that will have positive impact on the physical environment, the program is uniquely positioned to combine educational and work opportunities to "at-risk" students in areas that will have a positive impact on the environment.
