Each shareholder of the corporation shall enjoy the preemptive right to acquire a proportionate share of any unissued or treasury shares to be sold by the corporation on the same terms as such shares would be sold to non-shareholders. The number of shares that each shareholder shall be entitled to purchase shall be determined by multiplying the number of shares of unissued or treasury stock to be sold by a fraction which has as its numerator the number of shares owned by the purchasing shareholder, and which has its denominator the total number of issued and outstanding shares of the corporation owned by all shareholders before the contemplated sale. In the event that any shareholder chooses to purchase less than all the shares to which he is entitled to purchase, the remaining shares shall first be offered to the remaining shareholders of the corporation. In the event that the calculations set out above result in a shareholder being entitled to purchase a fraction of a share, the corporation shall issue such fractional share.
