ARTICLE III - PURPOSE

The purpose for which the corporation is organized is to provide assistance to students who seek to work within the music industry. The EMG foundation was established in an effort to provide resources to those students who are selected to fill intern positions but are unable to afford the cost and expenses that are expected. EMG is aware that the majority of internships within the music industry are unpaid; therefore we want to accommodate select students with a comfortable living situation so that they can focus on maximizing their energy and potential within the industry. The EMG foundation should also be viewed as a source for students to receive aid in accomplishing their goals of completing a demo. EMG recognizes the expensive costs that are expected when creating a quality demo, so we want to provide assistance to those students who desire to promote a sample of their talent to the industry.

The last objective for the development of the EMG foundation is to provide assistance to individuals within select communities and high schools. We want to provide workshops to these individuals in an effort to educate them on information regarding the music industry, as well as provide the tools that they need to be successful in their musical endeavors.
