It is a home first, then a business.

The business officially opened around the end of July 2006 but we had no customers. The first customer came around the beginning of March 2007. So for March we started off with two clients. Then one left. She was a temporary placement. The steadiest income for the year was the \$500 client. I have had many come and go. They were not properly placed. Most of the time clients who would come to me were the mentally ill and substance abuse clients. Some had habits that were unbearable to break. They were not willing to follow the rules and constantly caused commotion. We only remained with one that was somewhat bearable. Also since the stroke patient came she's been steady as well. Her family seemed to abandon her most times unless she gave them money. I am a nurse and then a friend to these clients.

Our actual monthly expenses are approximately \$2684. This number sometimes fluctuates due to the client census, needs, wants, and illnesses. I still keep a client that resides with his parents. I contract with him through my agency (Maxim). For the year I earned nearly \$20,000. Mostly the money kept the bills paid and the clients happy most of the time. In this report it showed actual and potential earnings.

Soon we'll be advertising and hopefully we'll look forward for more rewarding years to come.

There were not clients at the time. I was marketing and registering with the state. I also used my spare time for business set up and purchase of furniture. I did a lot of internet ads on Yahoo Classifieds. I also continued my work on my business website. <http://10749bahiadri.tripod.com>

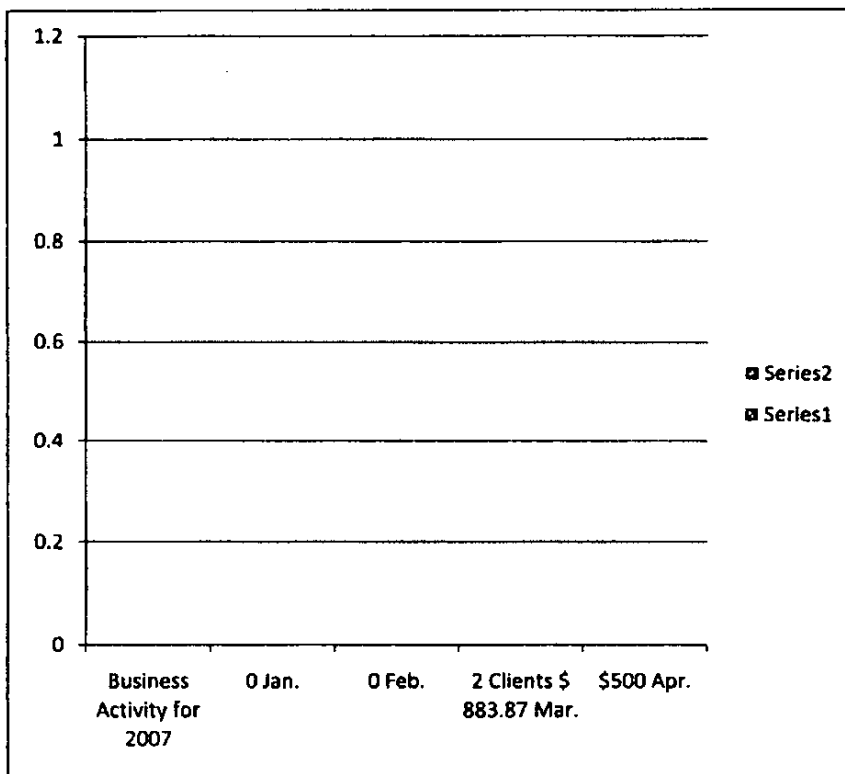

In other times I worked with Maxim Healthcare to furnish my income for expenses.

I continued Yahoo Classifieds and since I was registered with the State of Florida. I began getting client and social worker referrals. Now, with each client, usually they came to me with no social worker. I have very little social worker skills but I did internet research and did as much planning, doctor visits, charting, cooking, cleaning, and appointment setting as I could for all clients. It was a tedious job but I did the best I could. I also monitored the health and well being of all clients, in-between State visits and site reviews. The clients are my fulltime responsibility. There was very little off time. I had to try to keep family members abreast of the happenings of all my clients. I also managed the house and dealt with cultural disputes.

I also managed the house and dealt with cultural disputes. I recently acquired a hearing impaired and somewhat mute young man. There were a lot of learning sign language and translation for me during this period of Sept. to Oct. 2007. Also I had to police my foods in refrigerators and freezer. The patients were very tense with each other. A lot of time they didn't respect each other boundaries and foods. They fought constantly. Again this was a very stressful time for me. I managed to pick up some work on the side with Maxim to help feed and entertain the group. It almost seemed better to loose out on the money in order to have some peace and quietness. Let's just say it was very "NOISY", Loud, tense, and restless.

They was a full house of four clients in Dec. 2007. Mostly, the clients were mentally and physically challenged. They were a lot of rule breaking during March 2007- Dec. 2007. They were a lot of trips to the Hospital, outings, house exterminations, more meals ordered from outside for my expenses. The clients paid bases on their income for room, board, meals, transportation, entertainment, and personal nursing services.
