Re: Global Securities, Inc.

Dear Sir/Madam:

This letter is in support to the filing of the Articles of Incorporation of Global Securities, Inc.

Section 607.0401(4) of the Florida Statutes, provides that the corporate name "*must be distinguishable from the names of all other entities or filings, except fictitious name registrations pursuant to s. 865.09, organized, registered, or reserved under the laws of this state, which names are on file with the Division of Corporations.*"

Consulting Sunbiz.org, I noticed that there is an existing corporation called Global Security, Inc. and am afraid to have the filing of the present Articles of Incorporation rejected on the grounds that the name designated in the Articles of Incorporation is not distinguishable from the name of the existing corporation "Global Security, Inc."

In light of the reasons stated below, I believe that the name suggested, "Global Securities, Inc.", is in accordance with the Florida Statutes and is completely distinguishable from "Global Security, Inc."

First, both entities are distinguishable by area of business. Global Security, Inc. is a Florida corporation that offers protection services such as: Burglar Alarm Installation, Monitoring, and Service; Fire Alarm Installation, Monitoring, and Service; Custom Designed Camera Installations - Traditional and Covert; Home Automation & Remote Control; etc. On the other hand, Global Securities, Inc. intends to be registered as a Broker/Dealer and Registered Investment Advisor, which will offer its clients financial advisory services related to the purchase and sale of securities "investment products" such as: Stocks; Bonds and Mutual Funds.

Second, the names "security" and "securities" have two totally different meanings. Security is the condition of being protected against danger or loss. In the general sense, security is a concept similar to safety. Securities, in contrast, are investment vehicles like stocks, mutual funds and bonds. Furthermore, the term "securities" is often used to indicate ownership or creditorship, such as notes, stocks, treasury certificates or bonds.

Therefore, even though one might argue that the spelling is similar, it is clear that Security and Securities are distinguishable terms, which have two different meanings and are used to designate two diverse realities. The former is often related to the idea of protection/safety; the latter is always and only used in connection with investments in the financial market or investment products.

Considering the foregoing, we kindly ask you to approve and authorize the filing of the attached Articles of Incorporation under the name Global Securities, Inc.

Should you have any questions or comments, please do not hesitate to contact me.

Very truly yours,

Ozzie A. Schindler
