Gentlemen:

Recently, I advised you that I am the attorney representing the above entity. After filing the LLC, the client decided to form a SubS corporation instead. The SubS filing was rejected, due to the prior filing of the LLC. I was told that I needed to dissolve the LLC, which I have done. Now, I need to refile the S corporation. Please be advised that the client no longer claims the LLC name, and wishes that the S Corporation be filed. If you require any further confirmation, please let me know.
