E. If amending or adding additional Articles, enter change(s) here:
(Attach additional sheets, if necessary). (Be specific)

1. The first step in the process of creating a new product is to identify a market need. This involves conducting market research to understand what consumers want and what gaps exist in the current market.

2. Once a market need is identified, the next step is to develop a concept. This involves brainstorming ideas and creating a prototype that demonstrates the basic functionality of the product.

3. The third step is to conduct a feasibility study. This involves evaluating the technical, financial, and market viability of the product concept.

4. If the feasibility study is positive, the next step is to develop a business plan. This involves outlining the marketing, sales, and distribution strategies for the product.

5. The final step is to launch the product. This involves manufacturing the product, setting up a distribution network, and promoting the product to the target market.

F. If an amendment provides for an exchange, reclassification, or cancellation of issued shares, provisions for implementing the amendment if not contained in the amendment itself:
(if not applicable, indicate N/A)
