My name is Thomas Szelistowski.

Over the weekend I became aware that someone opened a Florida business using my home address and listing me as CEO and registered agent.

I became aware of this because we received a postal service change of address notification and a state of Florida labor mailing to our home. I researched the business name on Sunbiz and found the articles of incorporation.

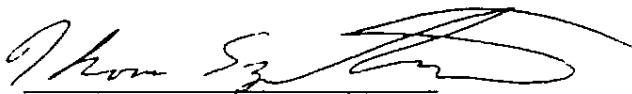

The company name is Oakmont Solutions Inc and the articles of incorporation through the Sunbiz website show a document number of P21000018803.

The address listing for the corporation is my home address of:

4502 Southbreeze Drive
Tampa, FL 33624

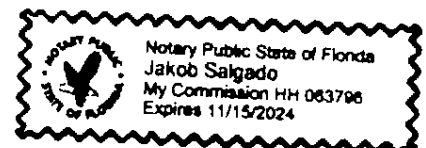

I have no knowledge or suspicion of who may have opened this business.

At no time have I ever been affiliated with this company and I have no responsibility for anything associated with this company.
