Our company aims to change the gender paradigm in the USA, Europe and Latin America by supporting gender expansive youth with holistic, virtual psychoeducational training, an online community, games, apps and other learning resources. It also supports families, teachers and other stakeholders working with the gen z generation, facilitating the development of our teens' full potential.

Teen Evolution Education believes that helping members of Generation Z with their psycho-spiritual and ethical-social development is the most effective way we have to create the political, environmental, cultural and economic changes needed to transform the world and save our planet.

Our company is committed to creating and providing solutions in the form of educational and psychological technologies so that, instead of forcing members of the Z generation to adapt to obsolete social patterns, we allow their ideas, interests and preferences to drive social change at all levels.

Teen Evolution Education not only promotes the shift of old and persistent gender beliefs, but also seeks to impact the transformation of other social paradigms that promote exclusion, exploitation and self-destruction; including the environmental, animal, economic and health paradigms. Developing products and services that change these beliefs, while promoting personal responsibility, are vital to the fulfillment of our mission.

Likewise, coherence is a guiding principle in the decision making process of our company, and guides us in the selection of tools, materials and resources that protect our environment and animals, while ensuring that they align with our values and principles of diversity, equity and peace.

The specific public benefit(s) to be created by the corporation (in addition to its general purpose) are as follows:

1. Promote the psycho- spiritual, ethical-social, physical, emotional and financial well-being of millions of LGBTQI+ and other gender expansive teenagers.

2. Accompany parents and relatives of teenagers in the transformation of gender beliefs that do not allow for healthy family relationships.
3. Train teachers in the comprehensive skills required to facilitate inclusive educational spaces.
4. Create a global learning and collaborative community of parents and professionals committed to the well-being of teenagers.
