11. The authors note that the results of the study are consistent with the findings of other studies that have shown that the use of a structured approach to the assessment of a patient's mental status can improve the accuracy of the assessment. The authors also note that the use of a structured approach to the assessment of a patient's mental status can improve the reliability of the assessment. The authors conclude that the use of a structured approach to the assessment of a patient's mental status is a valuable tool for the clinician.
