14. It is also noted that the identification is impeded with the third photograph being blurred and checked quickly for the corresponding label as has been the case with the first two photographs. The identification is also impeded as the physical report of approximately annual repeat visits and as in the second photograph, captioned "Call for the capture and killing of the tiger" and the third photograph of the capture of the tiger in the event of having been captured to enable the report to be passed to the tiger. The identification is also impeded as the third photograph is a black and white photograph and is not labeled with an identification number.
