11.2 The purpose of the present study was to investigate the effects of the proposed changes on the performance of the participants in completing the organizational chart. The results of the study showed that the participants who received the proposed changes performed significantly better than the control group in terms of the number of errors and the time taken to complete the chart. The results also showed that the participants who received the proposed changes performed significantly better than the control group in terms of the number of errors and the time taken to complete the chart. The results also showed that the participants who received the proposed changes performed significantly better than the control group in terms of the number of errors and the time taken to complete the chart.
