41. *Journal of the American Statistical Association*, 96(454), 1039-1047. This article presents a new method for the estimation of the parameters of a bivariate copula function. The method is based on the use of the empirical copula function and the empirical copula density function. The method is applied to the estimation of the parameters of a bivariate copula function for the data of the 1996 U.S. Census.
