Re: Lighthouse EMS
Document Number P98000036187

Dear Sir,

I found out in January of 2009, when my husband went in the hospital in a coma, that he had used my Social Security Number to create his Tax ID Number for his business, at that time called Lighthouse Equipment Management Service and Repair, Inc. in 1998.

I also found out that he had me listed as President of his Corporation on Florida Department of State, Divisions of Corporations since 1998 without my permission. I had no knowledge of this until he was hospitalized.

I have since contacted the IRS and they have removed my Social Security Number from his Tax ID Number and have replaced it with his Social Security Number. They also advised me

that I should contact Sunbiz.org, the State of Florida and have them remove me as President for the past years he had me listed as President without my permission or knowlege. So please remove me as President from 1998 through 2009. The IRS said that as President I could be liable for any of his company's past debts. He already has past IRS issues and some pending lawsuits. Thank you very much.

Sincerely,

Kathryn D. Cox
