## Pediatric Transport Services

Joe DiMaggio Children's Hospital offers the largest and most diverse group of board-certified pediatric specialists in the region, qualifying us to treat a wide variety of illnesses and injuries. We also provide the transport services to help children from near and far access the pediatric services and care they need.

### Transferring Your Child

#### Ground Transport

Joe DiMaggio Children's Hospital has a dedicated ambulance for prompt ground transport of children from local hospitals. The transport team includes a pediatric intensive care nurse, a pediatric respiratory

therapist and a pediatric intensive care physician, if necessary. There is also a neonatal transport team. These specialists provide high-quality medical care on the way to the hospital, while staying in constant contact with hospital-based physicians to help facilitate seamless care upon arrival. The mobile intensive care unit ambulance can transport up to two patients, plus family members and the medical team. Mobile extracorporeal membranous oxygenation (ECMO) can be provided for patients with critical cardiopulmonary conditions.

#### Air Transport

Air medical transport services via a fully equipped Learjet are available for emergency transport of severely ill or injured children. This critical care module with wings has flown to locations throughout Florida, the Caribbean and abroad to transport children under the care of a specially trained, in-flight medical team. ECMO can be provided during fixed-wing jet transport.

To assist in the rapid transport of critically ill or injured children to Joe DiMaggio Children's Hospital, helicopter transport is available. A highly qualified medical team specially trained in transport medicine and in-flight physiology provides full medical attention during the transport process.

Whenever possible, parents are encouraged to accompany the child during ground or air transport.

To request transport services call:  
**Transport Call Center 954-986-6330**

For more information about the services available at Joe DiMaggio Children's Hospital, please call:

### Specialty Care and Support

#### Pediatric Intensive Care Unit (PICU)

The PICU at Joe DiMaggio Children's Hospital features advanced monitoring equipment and a dedicated medical team of board-certified, fellowship-trained pediatric intensivists to provide 24-hour in-house medical care.

#### Hospitalist Program

Like the leading children's hospitals across the nation, Joe DiMaggio Children's Hospital utilizes hospitalists. These in-house, board-certified pediatricians are available 24 hours a day for children transferred to our facility. They manage the care of young patients and communicate regularly with the family and primary care physician regarding specific services, discharge and follow-up care.

#### Child Life Program

Child life specialists strive to make hospitalization as positive and stress-free as possible for young patients and their families. They offer emotional and developmental support, medical play and special activities at bedside. In addition, through our partnership with Broward County Public Schools, a teacher is available to assist hospitalized children with their schoolwork.

#### Conine Clubhouse

Conveniently located on the Joe DiMaggio Children's Hospital campus, Conine Clubhouse is a special home away from home for families of hospitalized children. Among its numerous amenities are 23 beautifully decorated rooms (including four suites for larger families) with private bathrooms and cable TV, a communal living room, a playroom, a laundry room, and a chapel.

Conine Clubhouse is supported through funding by Joe DiMaggio Children's Hospital Foundation. Accommodations are free of charge and based on availability.

#### Patient- and Family-Centered Care

Joe DiMaggio Children's Hospital is a patient- and family-centered care facility that embraces a collaborative approach among patients, families, physicians, nurses and other healthcare professionals.

In support of this philosophy, Joe DiMaggio Children's Hospital:

- Recognizes and promotes the family's role as the child's primary caregiver
- Respects and involves the family in decision-making and caregiving
- Shares information in ways that empower and support the patient and the family
- Accepts and builds on family strengths, cultural differences and individual methods of coping
