# Sun Glo

Nutritionals

# Magic 7

### GUARANTEED ANALYSIS

Total Nitrogen.....	7.00%
Available Phosphate as P <sub>2</sub> O <sub>5</sub> .....	0.00%
Soluble Potassium as K <sub>2</sub> O.....	0.00%
Soluble Magnesium (Mg).....	6.00%

Derived from: Magnesium Nitrate.

### DIRECTIONS FOR USE

SunGlo Magic 7 should be applied as needed starting with the first spray at 1 to 4 quarts per application in 100 gallons of water. Aerial Application: 1 to 4 quarter per acre in 5 to 15 gallons of water.

### CROP RECOMMENDATIONS

**Fruits & Nuts:** avocados, mangos, Peaches, Pecans.  
**Mature Trees:** Apply 1 to 4 quarts per acre per application. Repeat application if desired at 1 to 2 quarts per acre in summer and fall applications. **Young Trees:** Apply 2 quarts per 100 gallons water and wet to run off. Applications every 6 to 8 weeks throughout growing season have given excellent results. **Vegetable Crops:** 1 to 4 pints per acre per application. **Field Crops:** Corn peanuts, Soybeans, Small Grains; use 2 to 3 pints per acre per application. At least 3 applications are suggested with additional applications being necessary for more severe deficiencies. More frequent applications at lower rates will give better results.

SunGlo Magic 7 (7-0-0-6Mg) is a liquid foliar nutritional formulation designed for maximum uptake of Magnesium. Since Magic 7 is easily assimilated by both leaves and woody tissue, it is very effective as a foliar spray to prevent and correct deficiencies on fruit and most other crops in conjunction with a balanced fertilization program. The addition of a non-ionic surfactant will aid in uptake. Check the compatibilities of untried chemical mixes.

### CAUTIONS

Avoid getting in eyes, mucous membranes or on skin Use with adequate ventilation. Keep container capped when not in use. Keep away from children. Do not contaminate water supplies.

### PRECAUTIONS

- (1) Do not use with liquid foliar or ground fertilizer containing phosphates.
- (2) When compatibilities are unknown or questionable contact your supplier or use a jar compatibility test.

### ANTIDOTES

Skin or eye contact: Flush thoroughly with water and see a physician. Internal: Harmful if swallowed, induce vomiting if conscious and get medical attention at once.

### CONDITIONS OF SALE

1. Seller warrants that this product consists of the ingredients specified and is reasonably fit for the purpose stated on this label when used in accordance with the directions under normal conditions of use. No one other than the officer of seller is authorized (and such authorization must be in writing) to make any other warranty, guarantee or direction concerning this product.
2. Because the time, place, rate of application, weather conditions and normal or abnormal conditions of use or storage are beyond seller's control, seller's liability is limited to replacement of product or refund of purchase price. In no event shall seller be liable for indirect or consequential damages.
