ALMA MATER STUDIORUM

## MISSION

The Vision of Mater Academy, Inc is to provide students a viable educational choice that offers an innovative, rigorous, and seamless college preparatory curriculum, providing Mater students, at every level from PK-12th grade, with a competitive advantage against their contemporaries. To that end, Mater Schools strive to:

- create a thirst for knowledge in all disciplines;
- kindle the art of thinking and serve as a springboard for lifelong learning; and
- deliver and enrich every student with a sense of purpose, a belief in their own efficacy, and a commitment to the common good.

The Mission of the District is:

- Meaningful achievement of
- Academics facilitated by
- Teachers, administrators, parents & the community
- Enabling students to become confident, self-directed &
- Responsible lifelong learners.

## ALMA MATER STUDIORUM

### THE MATER DIFFERENCE

#### About Us

Mater Academy, Inc. is a not-for-profit educational organization operating 27 schools across 16 campuses serving 14,065 students in South Florida. The organization's first charter school, Mater Academy Elementary, was established in the city of Hialeah Gardens in 1998 and was one of the first charter schools to open in Miami-Dade County.

In establishing innovative programs, Mater Academy schools have identified three basic concepts:

- A learning environment that allows children to learn and progress at their individual pace
- small class sizes in a culture that supports personalized instruction
- a parental involvement program to ensure that all parents play an active role in the education of their children

#### Differentiated Instruction

The key to the success of the schools is the belief that "each child learns differently." Therefore, the schools constantly strive to take the best from a variety of approaches and match them to the learning style of each child.

#### Parental Involvement

Mater Academy schools stress the importance of parental involvement and have instituted specific measures which encourage parents to become involved in the educational process. Parents actively participate in meetings and volunteer activities at the schools. As a result, the schools enjoy a level of parental involvement and satisfaction that is extraordinary among public schools.

#### Best Practices

The governing board of directors believe that the future of education lies in partnerships between communities, parents, and educators and their commitment to prepare lifelong learners. Therefore all schools have an educational culture that upholds:

- high standards for academic excellence for both students and educators
- innovation and individualization in the learning process
- leadership and character education as a vehicle to develop "the whole child"

The "best practices" established by Mater Academy are supported by over ten years of educational success through experienced board members, involved parents and committed educators.

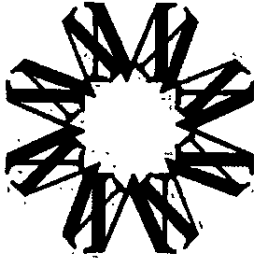

#### The Mater Curriculum

Varying from college preparation, to virtual classrooms to Performing Arts, each Mater program follows a state standards-based curriculum unique to the community and students it serves. All Mater Academy schools maximize student learning by employing research-based instructional strategies in technology-rich environment. This has proven highly successful in that each of the Mater Academy schools has been recognized at local and state levels and won multiple awards annually for high academic achievement while serving a high percentage of minority students.
