ABOUT US

We are a Florida based company established since 2008, dedicated to development of fleet management platform software and hardware. Since day one, our team of engineers has dedicated full time efforts to come up with top solutions to improve fleet management.

Over the last few years, we decided to focus on tire management, considering that when it comes to safety on the road, your tires are the first line of defense. According to the most recent report from the National Highway Traffic Safety Administration (NHTSA), there are about 11,000 tire-related accidents every year, and tire upkeep is essential. In addition, NHTSA notes that regular tire maintenance lengthens their lifespan, helps improve vehicle handling and increases fuel economy-by up to 11 cents per gallon.

We are proud to announce LiveTPMS, our new technology, which uses tire pressure monitoring systems (TPMS), in real time, available online from any device connected to the internet, to help our customers save costs, and make maintenance easier than ever.
