SUBJECT: THE LAND SOURCE
Ref. Number: W95000009450

We have received your document for THE LAND SOURCE and your check(s) totaling \$87.50. However, the enclosed document has not been filed and is being returned for the following correction(s):

Pursuant to section 495.031(1), Florida Statutes, the enclosed application must be completed in order to process your mark registration. Mark registrations submitted on forms other than the current forms provided by the Secretary of State's office will be rejected.

In Part 1(2)(a) or (b) you must state the goods or services the mark is used in connection with. If the mark is a trademark, you must specify the specific goods or products. If the mark is a service mark, you must specify the exact services you are providing.

Please be more specific as to the services being rendered. If the mark is used in connection with real estate, it should be registered in class 36.

Class(es) (36) would appear applicable to your specific mark. Please delete the class(es) you have on line 2 (d) and insert the pertinent class(es) (36).

The specimens provided this office are not acceptable; we need three permanent specimens. We do not accept photocopies or camera ready copies. We do not accept specimens which have been altered or defaced in any manner. In order to register your service mark, we need specimens from which we can determine the services being rendered. We will accept brochures, newspaper, or magazine advertisements, or business cards. If business cards are used, we must be able to determine from the business card the services offered. The mere mark, address, city, etc., on the business card, brochure, or advertisement is not acceptable -- we must be able to look at the specimens provided and be able to determine the services being rendered. We need specimens for each class of registration.

Please return your document, along with a copy of this letter, within 60 days or your filing will be considered abandoned.

Focus on Seniors

*Never wear dark glasses to cut glare at night. They filter out much needed light. You can have a clear, anti-reflective coating put on your driving glasses to cut down on double images created when light reflects off glasses.

*When buying a car, consider a high-set style like a minivan. Sitting slightly above oncoming headlights cuts glare.

*Use high beams as often as possible.

*If you live in an area with few streetlights, consider having a second set of headlights installed over and slightly to the outside of the originals. Use them as you would high beams.

*Have your eyes and glasses prescription checked regularly and if you start on a new medication, ask if it will affect driving.

*Always keep your glasses, headlights, taillights, mirrors and windshield clean inside and out and don't smoke in the car.

*To avoid some glare from oncoming headlights, look to the edge of the road for a second or two.

Job-Hunting Tips for Seniors

Many older workers are competent, experienced, flexible — and unemployed.

Days Inns of America, which hires many older workers, also promotes the practice for other companies.

"Seniors are exceptional workers. They are reliable, willing to learn and often act as mentors for

their co-workers," notes John Russell, president and chief operating officer of Days Inns of America, Inc. "We want to see more of them in the workplace."

Finding a job at any age can be difficult. Improving your job search and interviewing skills can make the difference. Tips from Days Inns include:

*Conduct "informational" interviews with people in your industry of choice to understand the market, growth opportunities and what skills are desirable/necessary. Such contacts also can lead you to available positions.

*Learn the responsibilities of a given job and analyze how your skills apply to the position.

*Be open and eager for training. Consider continuing education to update your skills and package them for a variety of different job opportunities.

*Stress your willingness to accept new challenges.

*Demonstrate your loyalty through past work experience.

*Dress in contemporary fashion.

*Don't be discouraged by or afraid of working with computers.

The key word is research. "The more information you have, the better you will be able to get your foot in the door," said Beverly Hunes-Grace, assistant vice president of corporate gerontological development for Hartford Insurance. "Remember, you are in the driver's seat. To get to your destination, plot your course, so you'll know exactly where you're going."

GET YOUR \$\$ WORTH

Words to the Wise

If you haven't done so already, you really should get all your important records together and put them in a fireproof container kept in a safe place. Natural disasters, fire and theft can happen to anyone, and in the wake of such upheavals it's important to be able to put your hands on insurance papers, deeds and records of all kinds. Here are some tips from the California Society of Enrolled Agents on how to be prepared.

*The best way to create a record of your home's inventory is to video tape it. Rent or borrow a camera if you don't own one. Film every room of your house from top to bottom; as you video each object, offer a description of it, mention its price or value, plus how and when it was acquired. Create an evacuation box containing copies of important records and papers, including copies of your video tapes. (The originals should go in your safe deposit box.) The evacuation box should be kept where you can grab it quickly if you have to, and should be one of the first things you take if you have to leave your home under emergency conditions. Papers you'll want to put into your evacuation box include: copies of your escrow papers, your title, deed and a list of improvements, birth certificates, passports, school records, your insurance policy's coverage list, your will, trust documents and credit card numbers. Any tax records for last five years and a list of all investments.
