ALIGNMENT POLICY

You've Made A Great Investment!

Automotive Industries' Alignment Policy is a great investment in the life of your car. We recommend that you have your alignment checked and reset to the manufacturer's specifications every 6 months or 6,000 miles. This will not only help you get the most out of your tires, but will also make your vehicle handle the way it was designed. At Automotive Industries our trained technicians use state of the art computerized alignment equipment to adjust your vehicle to manufacturer's specifications. We will also provide you with a computer print-out showing the readings before and after adjustment. A properly adjusted vehicle means a safer vehicle on the road where it counts the most.

HERE'S WHAT YOUR ALIGNMENT POLICY COVERS:

- ✓ **FREE INSPECTION & REALIGNMENT EVERY 6 MONTHS OR 6,000 MILES...OR WHENEVER YOU FEEL IT'S NECESSARY.**
- ✓ **FREE TIRE ROTATION WHENEVER DESIRED.**
- ✓ **FREE TIRE INSPECTION & AIR PRESSURE CHECK WHENEVER DESIRED.**

For the period of your alignment policy, we will inspect your steering and suspension components (pre-alignment check) for bent, worn, or broken parts, prior to aligning your car. If everything checks out, we will use state-of-the-art computerized alignment equipment to measure the alignment angles on all four wheels, and if necessary, reset the factory adjustable angles back to the manufacturer's specifications. In some cases, the angles are permanently set at the factory - and cannot be adjusted. To correct this type of alignment condition, your Automotive Industries technician may recommend shims or other special procedures. Under your alignment policy, these extra services are available to you at a 10% discount. If a special procedure is required on your vehicle, you will enjoy the option of having these procedures performed at the discounted rate...or authorizing Automotive Industries to set only those angles which are factory adjustable.

HOW DO YOU KNOW WHEN IT'S TIME FOR AN ALIGNMENT?

Your alignment should be checked, and if necessary, adjusted every **6 months or 6,000 miles**. If, at any time, you feel that your vehicle isn't handling correctly, or even if you've hit a curb or pothole, we've got you covered. Simply bring your car to your Automotive Industries store or call for an appointment. We'll gladly check your suspension and readjust your alignment under the policy.

WHERE IS YOUR ALIGNMENT POLICY HONORED?

One of the many bonuses of purchasing an alignment policy from Automotive Industries is that you're protected at any Automotive Industries location, so if you have a problem on the road, or if you move, your alignment policy moves with you! Automotive Industries now has 32 stores throughout Florida and Georgia, all equipped with state-of-the-art computerized alignment equipment...and your policy will be honored at any of them!

To help us continue to make this alignment policy an affordable value to our customers, we must place certain restrictions on its coverage.

- If our technician finds that an adjuster is frozen or broken, you will be notified of the condition and given an estimate for the cost of the repair or replacement. You will then have the option to approve the repairs or allow Automotive Industries to set only those angles which can be adjusted.
- 3 Year Policy is transferable one time by the original purchaser to another vehicle.
- Lifetime policies are transferable to another vehicle, for a minimal charge.
- Automotive Industries does not accept any liability for consequential damage.
- If any suspension or steering component is installed by anyone other than Automotive Industries, a one-time alignment charge will be incurred to reinstate your policy.
