ICBO No. 2093 SBCCI No. 75101

CAUTION: Sawing or grinding of concrete may result in the release of dust particles containing crystalline silica, which could cause eye or nose irritation. Respirable crystalline silica can cause silicosis and might cause lung cancer. When sawing or grinding operations are in progress, provide for adequate ventilation, dust suppression, or other feasible engineering controls to keep silica levels below the PEL (Permissible Exposure Limit). If levels exceed or are likely to exceed the PEL, use a NIOSH-approved respirator with a HEPA filter and tight fitting goggles. A Material Safety Data Sheet is available from your closest MonierLifetile Sales Office.

This product has an installed weight of 9.0 pounds per square foot when installed with a 3" headlap. The installed weight is derived from testing conducted in accordance with ICBOES Acceptance Criteria for Special Roofing Systems Section 3.2 and shown in the above ICBO Report 2093.
